

HMIS Report Card

SSVF Project PLASE Rapid Rehousing

1/1/2022 to 3/31/2022

A

Data Timeliness	Data Completeness	Duplicate Entries	GPA
A	A	A	A

Data Timeliness: For 64 enrollments in the report date, the average number of days it took to enter was .9.

Data Completeness: For 143 clients served this quarter, 0.00% of their PII data elements were missing.

Duplicate Entries: There were 0 duplicate entries created by your organization during the reporting period with exact matches on Full Name, SSN and date of birth.

Grading:

Data Timeliness: The data timeliness grade is based off of the average number of days between the Project Start Date and the actual time the client is entered into ClientTrack. If there were no new enrollments during this time, the grade is N/A. *Less than 3 days = A, Less than 6 days = B, Less than 9 days = C, Less than 11 days = D, and 11 days and greater = F.*

Data Completeness: The data completeness grade is based off of overall error rate for Personally Identifiable Information (PII) data elements for your program, as indicated in Q2 of the HUD Data Quality Report. *Less than 1% = A, Less than 3% = B, Less than 5% = C, Less than 10% = D, and 10% and greater = F.*

Duplicate Entries: The duplicate entries grade is based on the number of duplicate client records entered by your agency during the reporting period with exact matches on Full Name, SSN and date of birth. *Less than 1 = A, Less than 2 = B, Less than 4 = C, Less than 6 = D, and 6 and greater = F.*
